30 October 2025

Quarterly Activities Report for the period ended 30 September 2025

Highlights

- Total Receipts - \$1,050,206
- Receipts from Customers - \$1,041,713
- Total Revenue: \$ 1,211,590 (up 13% year on year)
- ARR - \$3,541,706 (up 13% year on year)
- Proprietary system AWARE™ now fully deployed

Aeeris Ltd (**Aeeris** or the **Company**) continues to build on the strong strategic momentum achieved at the end of FY25, delivering a profitable quarter and advancing its transition into a fully proprietary technology business. With the successful launch of the AWARE™ system on 1 July 2025, Aeeris has enhanced the speed, precision, and scalability of its operations, enabling the Company to meet growing demand for Severe Weather & Natural Hazard risk solutions across Australia's insurance, infrastructure, and government sectors. While investment continues to support innovation and long-term capability, the Company remains disciplined in its approach and focused on driving sustainable, high-margin growth.

During the quarter, Aeeris successfully completed its annual ISO 27001 review. COO James Harris commented on the recertification recommendation, saying, "Our customers operate in critical industries and rely on us to maintain the highest standards of data security and system integrity. ISO 27001 sets us apart from vendors who have not attained this standard, and reinforces Aeeris' position as a trusted partner, now and into the future."

CEO and Founder Departure

During the quarter, the Company announced the departure of Founder and CEO, Kerry Plowright, who, alongside his wife Margo, has been instrumental in building Aeeris from concept to a market-leading environmental intelligence company.

The Board and Company extends its sincere thanks to Kerry and Margo for their many years of dedication, innovation, and leadership. Their legacy endures in the Company's technology, people, and purpose.

The Board has commenced planning for the appointment of a new Chief Executive Officer, with the process focused on ensuring strong leadership and alignment with the Company's long-term growth strategy.

Aeeris now enters an exciting new phase, building on this foundation to accelerate growth, deepen customer partnerships, and cement its role as Australia's leader in severe weather and natural hazard data.

Financial Overview

Aeeris delivered a profitable first quarter, recording revenues of \$1,211,590. This is an increase of 13% on the same time last year where, traditionally Q1 is a slow quarter for new customer generation.

Aeeris continues to have a strong balance sheet with no debt and a strong future sales pipeline in the verticals it is targeting. The Company is currently finalising its FY2025 R&D Tax Incentive Return which is expected to be lodged this quarter.

Recurring revenues remain robust, with the Company maintaining a solid Annual Recurring Revenue (**ARR**) position and securing new contracts in transport, mining and energy sectors.

Operational Review

On 1 July 2025, Aeeris officially launched its proprietary AWARE™ (Australian Weather and Risk Environment) system. Developed entirely in-house, AWARE™ represents the future of Aeeris' technology stack, delivering:

- Faster alert dissemination
- Enhanced automation and accuracy
- Improved user experience and client satisfaction

AWARE™ serves as the foundation of Aeeris' technology evolution, enabling scalability, AI integration, and real-time insight capabilities that underpin the Company's long-term strategy to lead the severe weather and natural hazard intelligence market.

Customer Growth and Partnerships

Aeeris welcomed Insurance Advisernet Australia as a new customer during the quarter, a significant milestone in realising another customer in one of the Company's key target market goals within the insurance and broking sector. This partnership reflects growing industry confidence in Aeeris' proprietary data, reliability, and service quality.

Aeeris is in active discussions with several major renewable energy organisations, exploring partnerships to integrate advanced risk data into their asset protection and operations frameworks. This is an important step in expanding Aeeris' presence in the global renewables market.

The Company's commitment to innovation drives constant enhancement of forecasting models, alerting systems, and reporting processes, ensuring clients receive the most precise

and timely information available. This dedication to excellence is reflected in Aeeris' ISO-certified quality management systems, which reinforce Aeeris' focus on accuracy, accountability, and service consistency.

Innovation and Future Growth

Aeeris continues to develop new technologies that align with its mission to be a global leader in severe weather risk mitigation. Ongoing R&D investments focus on predictive analytics, automation, and severe weather-resilient infrastructure intelligence.

Aeeris remains committed to building shareholder value through innovation, client success, and scalable recurring-revenue growth.

Business Activities and Expenditures

Payments made to related parties during the quarter were for directors' fees and consultancy expenses, consistent with prior quarters.

As with previous years, Q1 payments included recurring annual commitments for data acquisition costs, ASX listing fees and bi-annual payroll tax. The final contractual payment for external weather services supplied during the month of June was also paid this quarter.

This announcement has been approved and authorised for release by the Board of Aeeris Ltd.
